

Biotech-tailored Clinical Development

Your greatest impact starts with a CRO partnership you can trust

Trusted expertise for biotech success

With over 25 years of unparalleled experience, IQVIA Biotech is the trusted CRO partner for visionary biotech companies worldwide. We provide clinical development solutions designed to simplify your path to success and de-risk your CRO partnership decisions.

Our approach delivers tailor-made responsiveness, strategic problem-solving, and deep therapeutic expertise. A dedicated, hand-selected team — versed in the nuances of your therapeutic area — remains your team throughout the life of your project, helping you maximize patient impact globally.

Therapeutic expertise — hands-on and hand-selected for biotech

Therapeutically aligned solutions to help advance your clinical program to the next milestone. At IQVIA Biotech, we recognize the need for customized strategies across different subspecialties. Our team of therapeutically aligned experts have extensive experience in many fields, enabling us to develop and implement optimal clinical strategies.

Advance the value of your asset

Partner with IQVIA Biotech to help strengthen your position with investors and partners.

We use unparalleled real-world data and advanced technologies to improve clinical trial performance and operational expertise. Bring clarity and predictability to your design and start-up processes.

Regulatory compliance from region to region

We offer support through in-country contacts who thoroughly understand regulatory complexities. This ensures compliance with regulatory standards in each region and allows us to navigate regulatory standards efficiently and maintain compliance.

POWERING SMARTER HEALTHCARE FOR EVERYONE, EVERYWHERE

Partnering with IQVIA Biotech means you are always connected — to the right data, technology, and expertise. With seamless access to IQVIA's extensive resources, including Healthcare-grade AI[®] and Connected Intelligence[™], you can harness the power of integrated insights and advanced analytics to drive smarter, faster decision-making.

Whether tackling complex challenges or accelerating innovation, our connected approach ensures you have the support you need, when you need it.
